

THE VACCINE SEMINAR

Dr Tim O'Shea

Author of *Vaccination Is Not Immunization*

OXFORD, ENGLAND 3 SEP 11

West Oxford Community Centre (near rail station)

9 - 2

OTHER DATES:

Denver 27 Aug Barcelona 10 Sep

Still wondering about vaccines? Can they really cause brain injury?

Find out what the scientists who make the vaccines say - ingredients, risks, testing. We'll skip the propaganda and rhetoric and go right to the actual physical effects: what vaccines really do in the infant's body.

Newest research on peanut allergy and vaccines

2011 Schedule: 68 vaccines by age 18

Autism chelation protocol

The New Boutique Epidemics

HPV vaccine for 12 year olds

Vaccines injuries- the true stats

The new flu shot: with H1N1

Why it's banned in Europe and AU

The 60 Day Program

The unresolved MMR story

Hepatitis B on the first day of life

Mercury and aluminum in vaccines

Germ theory of disease vs. bioterrain

Colon revitalization

Detoxing vaccine ingredients

"All info - no frills - straight to the point. Loved it!" - Dr J Padrta

"A careful collection of irrefutable facts." Hans Raible, Esq. Stuttgart

"Entertained by absolutely intriguing material." Dr K Alderete Carlsbad

"You are right about pure blood; that is the key." Ted H. Spence, DDS

Tuition: £49
